

# A Merry Christmas

## Snowbow Productions

And what better way to celebrate it than to just pour a little drink or **two** and sit back to enjoy two **new** great ship DVDs from our **award winning series** "The Great Liners". There's something for everyone in these two new productions; made from more rare old film never made public before.

There's film of ships being built and launched, and voyages all over the world aboard cargo ships, ocean liners and even, would you believe, film taking us across the Atlantic aboard the old **Mayflower!** Yes, we actually take you all the way from Plymouth to the USA on the 1952 replica of that famous old ship, so you can experience just what it was like to have sailed across there in 1620. I could write a book on the content of these two DVDs alone, both lasting 60 mins and made to television broadcast standards, they really are quite special. We also have our special offer running for Christmas whereby if you buy two DVDs we will give you another one absolutely free, which is a huge saving and just has to be the perfect gift for anyone with an interest in shipping, so turn back the hands of time and enjoy these rare and special treats.

To order go to our website at: [www.snowbow.co.uk](http://www.snowbow.co.uk) (Where you will find details of all 39 DVDs in this remarkable series) or write to us at Snowbow Productions (2000) Ltd, 145 The Promenade, Peacehaven, East Sussex, BN10 7HN or just call us on: 00 44 (0) 1273 585391/584470. DVDs Cost £18.95p each incl P&P UK And finally, here to get you in a really great Christmas mood is the other half of our own, specially drawn Christmas Card, perhaps reflecting how a lot of us feel after the celebrations are all over and we've slightly overindulged!

# **A Merry, Merry Christmas to you all...**

Oh, and we have just been able to arrange two very special cruises for Maritime Memories in 2017, one for June from Niece back to London via lots of really interesting small ports, and the other in December, which as well as all our usual Maritime fun and small ports, we've also arranged for us to be able to go Christmas shopping at special Christmas Fairs in Denmark, Sweden and Germany, plus a VIP visit to a ship yard to watch the building of the new Saga Cruise ship and, if we're very good, a special gift for each one of us... Plus some special nautical tours just for us and all our usual Maritime Memories fun including, films, talks, special dinners, cocktail parties and even a talk or two from me, Des. We were hoping to send brochures to you in the next few weeks, but if you want details before the mail out, then just give Des or Ulla a call on **00 44 (0) 1273 585391/584470**, or send an email.

**After all that Christmas fun and food, getting away from it all with a nice relaxing cruise to look forward to sounds like a very good idea to us, so hopefully we can all have the holiday and voyage of a lifetime.**

Des & Ulla
